To whom it may concern:

I am writing to certify that Mayahk Ghogale, who is applying to your program, recently began conducting research in my lab. His project involves applying novel techniques that we have developed to the analysis of single cell RNA-sequencing (scRNA-seq) and other single cell datasets. While he has started working with us too recently for me to provide a formal recommendation (about a month ago), so far he has been very productive. I myself, and other members of my lab, have had a wonderful time working with him.

Sincerely,

A handwritten signature in black ink, appearing to read "Eric J. Deeds", with a long, sweeping horizontal line extending to the right.

Eric J. Deeds, Ph.D.
